

## NOTES

Depth is shell height - measured from the top of the shell down to the base.
**Shallow end 1200 deep.**
The floor slopes gently away to the deep end, so there is a depth for everyone.
**Deep end 1900 deep.**
A wide multi-step entry carries you in at the shallow end, and seats sit at both ends, mirrored out of the swim so nobody swims around them.
A continuous toe ledge runs the length of the pool, about 1070 below the top of the shell - somewhere to rest a hand or sit while you are in the water.

Water line (internal) 10000 x 4400 | outer shell 10396 x 4796 | all dims mm
