

NOTES

Depth is shell height - measured from the top of the shell down to the base.
Shallow end 1210 deep.
Wide steps at the shallow end take you in, and from there the floor runs away to a clean deep end.
Deep end 1740 deep.
The deep end is deliberately left clear - no steps, no seating and nothing to swim around. That clear water is what makes a 7 metre pool work.

Water line (internal) 7000 x 3500 | outer shell 7356 x 3860 | all dims mm
