

NOTES

Depth is shell height - measured from the top of the shell down to the base.
Shallow end 1300 deep.

Deep end 1680 deep.

A raking floor runs between the two, so the shallow end works for toddlers and the deep end works for swimming.
Three sculpted steps with 250 mm treads take you in at the shallow end, and a bench wraps around the pool for lounging and supervising.

Water line (internal) 5450 x 3350 | outer shell 5808 x 3708 | all dims mm
