

NOTES

Depth is shell height - measured from the top of the shell down to the base.
Full-depth floor - 1310 at the shallow end, 1340 in the deep end.
Almost the whole 6.5 metres is water you can swim in, with no shallow shelf eating the length you paid for.
Wide steps at the shallow end, plus stairs entering either side, so you walk in rather than climb down. Two corner seats in the deep end.

Water line (internal) 6500 x 3000 | outer shell 6856 x 3360 | all dims mm
