

NOTES

Depth is shell height - measured from the top of the shell down to the base.
Shallow end 1230 deep.
Deep end 1840 deep.
A generous entry step at the shallow end doubles as a lounging zone - somewhere for the little ones to sit and play without the deep end being part of the conversation.
A curved seat sits in the deep-end corner, keeping comfort out of the swim area.

Water line (internal) 8000 x 4000 | outer shell 8360 x 4356 | all dims mm
